

Social Tennis Manager

Admin Guide — Getting Started

Build 1.3.9 | 2026 Edition | socialtennismanager.com

WHAT'S NEW IN THIS VERSION

- ★ Admin lock icon — quick access to your dashboard
- ★ Session Message Board — post updates directly to your roster
- ★ Player Notifications — bell icon with real-time alerts
- ★ Auto Draw improvements — smarter, fairer court assignments
- ★ Level Required & Payment Required toggles
- ★ 8 language support: EN · FR · DE · ES · IT · PT · RU · ZH

SECTION 1

Accessing Your Admin Dashboard

Download Social Tennis Manager from the App Store (iPhone) or Google Play (Android), then log in with your registered email address.

- 1 Open the app and go to the login screen.
- 2 Enter your email address and tap **Send Code**.
- 3 Check your email for a 6-digit OTP code.
- 4 Enter the code in the app — you'll land straight in the admin dashboard.

TIP

Your login email must match the one you used when applying. If you have any issues, contact us at socialtennismanager2026@gmail.com

Admin Lock Icon

The app's bottom navigation bar includes an **Admin** lock icon . Tap it to access your admin dashboard directly — no need to long-press the app title. After completing OTP verification, the app remembers your admin status for a period so you won't need to re-verify every time.

TIP

The lock icon is the quickest way in. The long-press on the title still works as a backup.

SECTION 2

Your Club Code

Your club has a unique code that players use to find and join your club in the app. Find it in your admin dashboard under **Club Settings**.

TIP

Share your club code with your players — they'll need it when they first open the app.

SECTION 3

Creating Your First Session

- 1 From the admin dashboard, tap **Sessions**.
- 2 Tap **Create a new session**.
- 3 Fill in the session details: title, date & time, location, capacity, and price (optional).
- 4 Tap **Save** — your session is now live and visible to players.

Players can join immediately once the session is created. You'll see their names appear on the roster in real time.

SECTION 4

Managing Players & Rosters

Main List & Waitlist

When a session reaches capacity, new players automatically join the waitlist. If **Auto-promote waitlist** is enabled, players move up automatically when a spot opens.

Removing a Player

Tap any player's row in the roster and tap **Remove**. You'll be asked to confirm before they're removed.

Payment Tracking

Players tap **Mark Paid** on their own row to declare payment — this sets their status to Pending. You then tap **Confirm** to mark them as fully paid. You can also mark players as paid directly from the admin view.

SECTION 5

Session Settings & Toggles

From the Sessions screen, tap the settings icon to access your club's session toggles:

Toggle	What it does
Show player levels	Displays each player's skill level on the roster. (Pro)
Auto-promote waitlist	Automatically fills spots from the waitlist. (Pro)
Level Required	Players must have a skill level set before they can join a session.
Payment Required	Players must complete payment before their spot is confirmed.
Allow guest & family joining	Lets players add up to 2 guests when joining.
Require payment declaration before joining	Players must declare they've paid before their name goes on the list.
Require payment for reserves	Extends payment tracking to waitlist players.

SECTION 6

Session Message Board

Post updates, reminders, or cancellation notes directly to a session's roster. Messages are visible to all players on that session — including those on the waitlist.

Posting a Message (Admin)

- 1 From the admin dashboard, open any session (including cancelled ones).
- 2 Tap **Messages** to open the Session Message Board.
- 3 Type your message and tap **Send**.

How Players See Messages

- A **speech bubble icon** appears on each session card on the home screen. Outline = no messages; filled green = messages present.
- Tap the icon to read messages in a read-only modal.
- **Important:** Cancelled sessions are non-tappable, so the home card icon is the only way players can read cancellation notes — always post a message when cancelling.

NOTE

When you cancel a session, post a message explaining why. It's the only way players on that session will see your note.

SECTION 7

★
NEW

Player Notifications

Players receive in-app notifications for key session events. A bell icon ■ appears in the top navigation bar with a red dot showing the unread count.

Notification Types

- **New Session** — a new session has been created
- **Draw Published** — the match draw is ready to view
- **Session Cancelled** — a session has been cancelled
- **Waitlist Promoted** — a player has moved from waitlist to main roster
- **Membership Approved** — a membership request has been approved
- **Spots Low / More Spots** — session filling up or spots have freed
- **Session Message** — a new message has been posted to a session

Subscribing & Unsubscribing

Players manage their notification preferences per club. A 3-button alert lets them Cancel, View notifications, or Unsubscribe from a club's alerts. The app badge count reflects total unread notifications across all clubs.

NOTE

App icon badges and push alerts only work in the full installed app — not in Expo Go or development builds.

SECTION 8

Creating a Match Draw

The Auto Draw engine assigns players to courts fairly, accounting for skill levels, partner history, and match balance. The draw can be regenerated as many times as you like before publishing.

- 1 From the admin dashboard, tap **Draw**.
- 2 Select the session you want to create a draw for.
- 3 Choose **Singles** or **Doubles**.
- 4 Set the number of courts and rounds.
- 5 Tap **Generate Draw** — the app assigns players to courts automatically.

6

Review and adjust manually if needed.

7

Tap **Publish** — players can now see the draw in the app.

TIP

You can unpublish and regenerate a draw at any time before the session starts. Each regeneration uses a different seeded arrangement for variety.

SECTION 9

Members Feature

Designate players as official club members to give them special privileges across sessions. Enable the feature from the admin dashboard under **Members**.

Setting Up Members

- 1 From the admin dashboard, tap **Members**.
- 2 Tap **Member list** to view, add, and manage members.
- 3 Tap **Add** — enter their name, level, and contact details.
- 4 Set their status to **Active** to grant member privileges.
- 5 Players can also request membership from within the app — you'll see a pending badge and can approve from the member list.

Member Settings & Toggles

Toggle	What it does
Members feature on/off	Master switch. When on, designated members get special privileges in sessions.
Members pricing	Set a flat price for members across all sessions. Visitors see the standard session price.
Priority joining	Members are placed ahead of non-members on the waitlist. Requires Auto-promote to be enabled.
Auto-confirm members	Members are marked as paid automatically when they join — no manual confirmation needed.

Create Session from Members

Pre-fill a new session directly from your active member list — useful for regular club sessions.

- 1 From the Members screen, tap **Create session from members**.
- 2 Select members — a checkmark and purple highlight confirm selection. Use **Select all** or sort by name/level.
- 3 Tap **Continue with X members**.
- 4 Fill in the session details as normal and tap **Create Session**.
- 5 Selected members are automatically added to the roster. If more members than spots, overflow goes to the waitlist.

TIP *Members on the session roster are shown with a ★ star indicator. If Auto-confirm members is on, pre-filled members are marked as paid automatically.*

SECTION 10

Language Support

Social Tennis Manager is available in 8 languages. The app detects your device language automatically, and you can switch manually from the menu in the top-right corner of the app.

Language	Code	Language	Code
English	EN	Italian	IT
French	FR	Portuguese	PT
German	DE	Russian	RU
Spanish	ES	Chinese Simplified	ZH

SECTION 11

What to Tell Your Players

Feel free to copy and paste the message below into your WhatsApp group, Facebook group, or club newsletter:

Hey everyone! We're now using Social Tennis Manager to manage our sessions.

Here's how to get started:

1. Download the app — search "Social Tennis Manager" on the App Store or Google Play (it's free)
2. Open the app and enter our club code: [YOUR CLUB CODE]
3. You're in! You'll see upcoming sessions and can join with your name and skill level

Turn on push notifications in the app to get alerts when new sessions are posted.

See you on court! ■

SECTION 12

Free vs Pro

FREE — \$0 forever	PRO — \$9.99/month AUD
✓ 1 active session	◆ Unlimited sessions, players, courts
✓ Up to 16 players	◆ Session templates
✓ Up to 4 courts / 4 rounds	◆ Custom skill levels
✓ Guest & family joining	◆ Push notifications
✓ Payment confirmation	◆ Session history & stats

	◆ Members feature (priority join, pricing, auto-confirm)
	◆ Show player levels
	◆ Tap Upgrade in the dashboard or visit socialtennismanager.com
